Dear Madam:

Responding to yours of January 7th: If what you want is a list of premiums paid on United States Coins, there is a convenient booklet published by Cuttag Brothers, 16 Exchange Place, New York City, called 'Rare Coins of the United States', for which they charge something under $1.00

The question of condition plays so vital a part in the valuation of even rare coins that no book can satisfactorily deal with the matter. The booklet mentioned above lists chiefly rarities on which dealers are willing to pay a premium.

Yours very truly,

Secretary
